Freight Access Project: Problems and Solutions Brainstorming

What are we looking for from the Freight Board?

Session I

Feedback on:

- Current movement problems
- Future movement problems
- Concerns with other travel modes

Session II

Feedback on potential solutions to above

Suggestions:

- Consider each of three geographic areas:
 - Duwamish MIC
 - BINMIC
 - Downtown
- Comments can be about projects, programs or decision making
- Think about how the system works for your current business functions
- Identify general concerns about where freight mobility appears to be heading
- What are ways City and peer agencies can make it better for moving goods and services?
- How can SDOT reach out to the broader freight community?
